Foreward

This Model Recognition Manual has been issued in order to provide the dealers with enough information to distinguish one model from another when a motorcycle is brought to the dealer for troubleshooting or repair. All motorcycles produced at Akashi Plant in Japan from 1995 to 2001 and those produced at KMM in U.S.A., and few products produced at KMT in Thailand, at KMPC in Philippine are listed in this Manual. They are listed following the ascending order of nominal engine displacement. Under each engine size, further classification is conducted by model and year. Charts in the rear of the manual give model years, naming and export area information.

Accompanied with a photograph of each model, the following relative information is supplied:

1. Photograph
Since the photographs show the standard productions, there may be minor difference in appearance between the picture and the actual motorcycle.
2. Marketing Code
3. Model Year
4. Engine Displacement, Engine Type, Transmission Type
5. Color
6. VIN No. (Beginning VIN Number)
The “√” mark in the VIN number shows the digit that changes from one machine to another
(EX: JKAZRDF1√1A050001).
7. F No. (Beginning Frame Number)
8. E No. (Beginning Engine Number)
9. PC No. (Parts Catalog or its Microfiche Number)
10. OM No. (Owner's Manual Number)
11. SM No. (Service Manual Number)

This manual covers from the 1995 to 2001 models. Refer to the following Model Recognition Manuals for older models.
